I. INTRODUCTION

A. RISK FACTORS

I. Standard Risk Factors :

1. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
2. As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
3. Past performance of the Sponsor/AMC/Mutual Fund does not indicate or guarantee the future performance of the scheme of the Mutual Fund.
4. Shriram Multicap Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer carefully and consult their tax and Investment Advisor before they invest in the Scheme.
5. The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs. 1 Lakh made by it towards setting up the Fund.
6. The present scheme is not a guaranteed or assured return scheme.
7. There is no assurance or guarantee that the objective of the mutual fund will be achieved.
8. There is no guarantee or assurance on the frequency or quantum of dividends or bonus (which shall be at the discretion of the AMC/Trustee and also depend on the availability of adequate distributable surplus) although there is every intention to declare dividends in Dividend Plan or declare Bonus in the said option.
9. Mutual Fund Investments are subject to market risks, read all scheme related document carefully.

II. Scheme Specific General Risk Factors :

Some of the specific risk factors related to the scheme include but are not limited to the following :

1. The performance of the scheme may be affected by the corporate performance, macro-economic factors, changes in Government policies, general levels of interest rates and risk associated with trading volumes, liquidity and settlement systems in the securities markets.
2. Low trading volumes, settlement periods and transfer procedures may restrict the liquidity of the scheme's investments. Transacting may become difficult due to extreme volatility in the market resulting in constriction in volumes. Additionally, changes in the SEBI/ RBI regulations/Guidelines may have an adverse impact on the liquidity of the scheme. Different segments of the Indian financial markets have different settlement periods, and such period may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event the Scheme has to meet an inordinately large number of redemption requests. In addition, the Trustee at its sole discretion reserves the right to limit or withdraw sale and/or repurchase/redemption and/or switching of the units in the scheme (including any one of the Plans of the scheme) temporarily or indefinitely under certain circumstances. For details refer the Section '**Right to limit redemptions**'. The scheme will retain certain investments in cash or cash equivalent for the day to day liquidity requirements.

III. Risk associated with investments in equities and equity related instruments :

Investments in equity and equity related instruments involve a degree of risk, both company specific and market risks and thus investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

The scheme will predominantly invest in equity and equity related securities diversified over various sectors. Thus, any price fluctuation for these securities may adversely affect the NAV of the units issued under the Scheme. The same may also lead to out-performance or under-performance of the scheme against Nifty 50 which is the benchmark index for the scheme.

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Scheme may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

IV. Risks associated with Fixed Income Securities :

The following are the risks associated with investment in Fixed Income securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the

credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

V. Risks associated with Investing in Derivatives :

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis-pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads and hence impacting the profitability of the reverse arbitrage strategy.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates and Commodities.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

"The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments."

VI. Risks associated with Short Selling & Securities Lending:

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

VII. Risk Factors Associated with Investments in Foreign Securities:

Subject to necessary approvals, the Scheme may also invest in overseas financial assets as permitted under the applicable regulations. The value of an investment in a foreign issuer's securities may depend on general global economic factors or specific economic and political factors relating to the country or countries in which the foreign issuer operates. To the extent the assets of the Scheme are invested in overseas financial assets, there may be risk associated with fluctuation in foreign exchange rates, restriction on repatriation of capital and earnings under the exchange control regulations and transaction procedure in overseas market. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls, political circumstances, bi-lateral conflicts or prevalent tax laws. Since the Scheme would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of such Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management and hedging and portfolio rebalancing and in accordance with conditions as may be stipulated under the Regulations and by RBI from time to time.

Investment in foreign securities carries currency risk. Currency risk is a form of risk that arises from the change in price of one currency against other. The exchange risk associated with a foreign denominated instrument is a key element in foreign investment. This risk flows from differential monetary policy and growth in real productivity, which results in differential inflation rates. The risk arises because currencies may move in relation to each other.

Presently the AMC does not have approval to invest in foreign securities. It will take the necessary approvals from SEBI & RBI before commencing investments in foreign securities and a dedicated fund manager will be appointed to oversee investments in foreign securities.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme(s)/Plan(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s)/Plan(s) (at portfolio level). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall

be complied within each subsequent calendar quarter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem/hold Units.
- Neither this Scheme Information Document ("SID"), SAI nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document or Statement of Additional Information in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, persons who come into possession of this Scheme Information Document or Statement of Additional Information are required to inform themselves about and to observe any such restrictions and/ or legal compliance requirements.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such Redemption.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information.
- The tax benefits described in this Scheme Information Document and Statement of Additional Information are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unit holder is advised to consult his / her own professional tax advisor.
- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- In case the AMC or its Sponsor or its Shareholders or their affiliates/associates or group companies make substantial investment, either directly or indirectly in the Scheme. Redemption of Units by these entities may have an adverse impact on the performance of the Scheme. This may also affect the ability of the other Unit holders to redeem their units.
- As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Unit may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme portfolio. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances - please refer to the paragraph "Right to Limit Redemptions".

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An Open Ended Equity Scheme Investing Across Large Cap, Mid Cap, Small Cap Stocks

B. INVESTMENT OBJECTIVE OF THE SCHEME

The primary investment objective of the scheme is to generate long term capital appreciation by investing in an actively managed portfolio predominantly consisting of Equity & equity related securities diversified over various sectors.

However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns.

C. ASSET ALLOCATION PATTERN

Under normal circumstances, the anticipated asset allocation pattern of the Scheme would be as under:

	Indicative Allocation		Risk Profile
	Minimum	Maximum	
Equity, Equity related instruments including Derivatives #	65%	100%	Medium to High
Debt & Money Market Instruments #	0%	35%	Low

including Derivative instruments.

Investment in Derivatives – up to 50% of the net assets of the Scheme. Investment in derivatives shall be for hedging, portfolio balancing or any other purposes as maybe permitted by SEBI from time to time.

In terms of SEBI Circular no. SEBI/IMD/CIR18/198647/2010 dated March 15, 2010; the mutual fund /AMC shall make investment out of the NFO proceeds only on or after the closure of the NFO period.

The Fund shall not take any leveraged position. The cumulative gross exposure through debt and derivatives position shall not exceed 100% of the net assets of the scheme.

Investment & Disclosure in the derivatives will be in line with SEBI Circular no Cir/IMD/DF/11/2010 dated August 18, 2010.

The scheme will not invest in securitized debt.

The Scheme retains the flexibility to invest across all the securities in the Equity and Equity related instruments, Debt and Money Market Instruments. The Scheme may also invest in units of debt and liquid mutual fund schemes. As per investment restrictions specified in the Seventh schedule of SEBI (Mutual Fund) Regulations, 1996, the Scheme may invest in other schemes of the Mutual Fund or any other mutual fund without charging any fees, provided the aggregate inter-scheme investment made by all the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the Net Asset Value of the Mutual Fund.

The Scheme can invest up to 50% of net assets in Foreign Securities. All investments in foreign securities shall adhere to SEBI circular SEBI/IMD/CIR No.7/104753/07 dated September 26, 2007 and amendments thereto.

Presently the AMC does not have approval to invest in foreign securities. It will take the necessary approvals from SEBI & RBI before commencing investments in foreign securities. A dedicated fund manager will be appointed to oversee investments in foreign securities prior to taking exposure in foreign securities.

Pending deployment of the funds in securities in terms of investment objective of the Scheme, the AMC may park the funds of the Scheme in short term

deposits of the Scheduled Commercial Banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time.

The Scheme may engage in Short selling of securities in accordance with the framework relating to Short Selling and securities lending and borrowing specified by SEBI.

The Scheme may also engage in Securities Lending wherein the Scheme shall not deploy more than 20% of its net assets in securities lending and not more than 5% of the net assets of the Scheme will be deployed in securities lending to any single counterparty.

The Scheme shall not invest more than 25% of its net assets of the Scheme in companies belonging to a particular sector as classified by AMFI. The limit shall not be applicable to investment in Bank CDs, CBLO, Government Securities, Treasury Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks.

The Mutual Fund / AMC shall ensure that total exposure of debt schemes in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, T-Bills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the scheme. For the purposes of sector exposure limits, AMFI sector classification of issuers would be considered.

Provided that the Scheme may have an additional exposure to financial services sector (over and above the sector limit of 25%) not exceeding 15% of the net assets of the Scheme by way of increase in exposure to Housing Finance Companies (HFCs). Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/exposure in HFCs shall not exceed 25% of the net assets of the Scheme.

The total exposure of scheme in a Group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

For this purpose "Group" means a group as defined under Regulation 2(mm) of SEBI (Mutual Fund) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

Changes in Investment Pattern:

Subject to the SEBI regulations, the asset allocation pattern indicated above may change from time to time, keeping in view the market conditions, market opportunities, applicable regulations and political and macroeconomic factors. Such changes in the investment pattern will be for short term and defensive considerations only and the intention being at all times to seek to protect the interests of the Unit holders.

In case of any deviation, the asset allocation would be restored in line with the above mentioned asset allocation pattern within 1 month from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 1 month, justification shall be provided to the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objectives of the scheme.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations.

Overview of Debt Market: The major players in the Indian Debt Markets are today are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risk and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators in this direction over a period of time. SEBI's directive of a compulsory rating by a rating agency for any [public issuance over 18 months is a case in point. In times to come, dematerialization, entry of private insurance companies and growth of fixed income mutual funds are expected to enhance liquidity in corporate debt market.

D. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

- Equity and Equity linked instruments of domestic companies / corporations.
- Securities issued, guaranteed or supported by the Central Government or any state government (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Securities issued by any domestic government agencies, quasi-government or statutory bodies, Public Sector Undertakings, which may or may not be guaranteed or supported by the Central Government or any state government.
- Domestic non-convertible securities as well as non-convertible portion of convertible securities, such as debentures, coupon bearing bonds, zero coupon bonds, deep discount bonds, Mibor-linked or other floating rate instruments, premium notes and other debt securities or obligations of public sector undertakings, banks, financial institutions, corporations, companies and other bodies corporate as may be permitted by SEBI / RBI from time to time.
- Domestic Commercial Paper (CP), Certificate of Deposits (CD), Bills Rediscounting, CBLO, Repos in Government Securities, and other Money Market Instruments as may be permitted by SEBI / RBI from time to time.
- Domestic derivatives.
- Deposits with domestic banks and other bodies corporate as may be permitted by SEBI from time to time.

Any other domestic debt and money market instruments that may be available from time to time.

Any other instrument as may be permitted under the Regulations from time to time.

Investments in other schemes

The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investments made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

INVESTMENTS IN DERIVATIVE INSTRUMENTS

Brief note on investment in derivative instruments

As part of the Fund Management process, the Trustee may permit the use of derivative instruments such as index futures, stock futures and options contracts, warrants, convertible securities, swap agreements, Forward Rate Agreement (FRA) or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objectives of the scheme.

Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures/options can be an efficient way of achieving the scheme's investment objective. On the fixed income side, an interest rate swap agreement from fixed rate to floating rate is an example of how derivatives can be an effective hedge for the portfolio in a rising interest rate environment.

Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on Stock Exchanges whereas OTC derivative transactions are generally structured between two counterparties.

Derivatives may be high risk - high return instruments, upon leveraging. As they are highly leveraged, a small price movement in the underlying security could have a large impact on their value and may also result in a loss.

Position Limits:

The schemes may enter into derivative transactions in line with the guidelines prescribed by SEBI from time to time. The schemes may take exposure in derivatives up to a maximum of 50% of its AUM. These limits will be reviewed by the AMC from time to time.

Currently, the position limits for Mutual Funds and its schemes, as permitted by the SEBI Regulations, are as under:

The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme. Exposure due to hedging positions may not be included in the above mentioned limit subject to the following:

- Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
- Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned above.
- Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
- The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned above.

Further, the total exposure related to option premium paid must not exceed 20% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

Mutual Funds shall not write options or purchase instruments with embedded written options.

i. Position limit for Mutual Funds in index options contracts :

1. The Mutual Fund position limit in all index options contracts on a particular underlying index shall be Rs. 250 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
2. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for Mutual Funds in index futures contracts :

1. The Mutual Fund position limit in all index futures contracts on a particular underlying index shall be Rs. 1000 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
2. This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging :

In addition to the position limits at point (i) and (ii) above, Mutual Funds may take exposure in equity index derivatives subject to the following limits :

1. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
2. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for Mutual Funds for stock based derivative contracts :

The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts, stand modified in the following manner : -

1. For stocks having applicable market-wise position limit (MWPL) of Rs.500 crores or more, the combined futures and options position limit shall be 20% of applicable MWPL or Rs.300 crores, whichever is lower and within which stock futures position cannot exceed 10% of applicable MWPL or Rs. 150 crores, whichever is lower.
2. For stocks having applicable market-wise position limit (MWPL) less than Rs.500 crores, the combined futures and options position limit would be 20% of applicable MWPL and futures position cannot exceed 20% of applicable MWPL or Rs.50 crore whichever is lower.

v. Position limit for each scheme of a Mutual Fund :

The position limits for each scheme of mutual fund and disclosure requirements shall be identical to that prescribed for a sub-account of a FII. Therefore, the scheme-wise position limit/disclosure requirements shall be -

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares)

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts)

2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
3. For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Valuation :

The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.

The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and

(ii) of clause 2 of the Eighth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.

Stock and Index Options :

Option contracts are of two types - Call and Put, the former being the right, but not obligation, to purchase a prescribed number of shares at a specified price before or on a specific expiration date and the latter being the right, but not obligation, to sell a prescribed number of shares at a specified price before or on a specific expiration date. The price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. In India, all individual stock options are American Options, whereas all index options are European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike price.

Strategies that employ Options :

Buying a Call Option : Let us assume that the Fund buys a call option of XYZ Ltd. with strike price of Rs. 1000, at a premium of Rs. 25. If the market price of ABC Ltd on the expiration date is more than Rs. 1000, the option will be exercised. The Fund will earn profits once the share price crosses Rs. 1025 (Strike Price + Premium i.e. 1000+25). Suppose the price of the stock is Rs. 1100, the option will be exercised and the Fund will buy 1 share of XYZ Ltd. from the seller of the option at Rs 1000 and sell it in the market at Rs. 1100, making a profit of Rs. 75. In another scenario, if on the expiration date the stock price falls below Rs. 1000, say it touches Rs. 900, the Fund will choose not to exercise the option. In this case the Fund loses the premium (Rs. 25), which will be the profit earned by the seller of the call option.

Risks :

In case of buying options either call/put, the maximum loss would be the premium paid in case of options expiring out of the money.

Buying a Put Option : Let us assume the Fund owns the shares of XYZ Ltd, which is trading at Rs. 500.

The fund wishes to hedge this position in the short-term as it perceives some downside to the stock in the short-term. It can buy a Put Option at Rs. 500/- by paying a premium of say Rs. 10/- In case the stock goes down to Rs. 450/- the fund has protected its downside to only the premium i.e Rs 10/- instead of Rs. 50/-. On the contrary if the stock moves up to say Rs. 550/- the fund may let the Option expire and forego the premium thereby capturing Rs. 40/- upside. The strategy is useful for downside protection at cost of foregoing some upside.

Risks :

In case of buying options either call/put, the maximum loss would be the premium paid in case of options expiring out of the money.

Stock and Index Futures :

The Stock Exchange, Mumbai and the National Stock Exchange have introduced Index futures on BSE Sensex (BSE 30) and Nifty (NSE-50). Generally, three futures of 1 month, 2 months and 3 months are presently traded on these exchanges. These futures will expire on the last working Thursday of the respective month.

There are futures based on stock indices as mentioned above as also futures based on individual stocks. Individual stock futures are also widely used derivative instruments for enhancing portfolio returns. Stock futures trade either at a premium or at discount to the spot prices, usually the level of premium reflective of the cost of carry. Many a times the stock-specific sentiments too have a bearing on Futures as speculators may find futures as a cost-effective way of executing their view on the stock. However such executions usually increase the premium/discount to the spot significantly, thereby giving rise to clean arbitrage opportunities for a fund.

Strategies that employ Index Futures :

Illustrative list of strategies that can employ index futures :

- (a) The fund has an existing equity portion invested in a basket of stocks. In case the fund manager has a view that the equity markets are headed downwards, the fund can then hedge the exposure to equity either fully or partially by initiating short futures positions in the index. A similar position in the long direction can also be initiated by the fund to hedge its position of cash and permissible equivalents. The extent to which this can be done is determined by existing guidelines.
- (b) To the extent permissible by extant regulations the scheme can initiate a naked short position in an underlying index future traded on a recognized stock exchange.

In case the Nifty near month future contract trading at say, 1850, and the fund manager has a view that it will depreciate going forward, the fund can initiate a sale transaction of nifty futures at 1850 without holding a portfolio of equity stocks or any other underlying long equity position. Once the price falls to 1800 after say, 20 days the fund can initiate a square-up transaction by buying the said futures and book a profit of 50. Correspondingly the fund can take a long position without an underlying cash/ cash equivalent subject to the extant regulations.

Risks :

The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

The Long position in the Nifty will have as much loss as the gain in the short portfolio if hedged completely and would be vice versa if we were holding long portfolio, short Index.

Strategies that employ Stock Futures :

Sell Spot Buy Future : To illustrate, let us assume the fund holds the stock XYZ Ltd which is trading @ Rs. 100/- at the spot market. If for some reasons the stock trades at Rs. 98 in the futures, the fund may sell the stock and buy the futures. On the date of expiry, the fund may reverse the transactions (i.e. Buy Spot & Sell futures) and earn a risk-free Rs. 2/- (2% absolute) on its holdings. Since this is done without diluting the fund's view on the underlying stock, the fund will benefit from any upside move i.e. if on the date of futures expiry, the stock is trading at Rs. 110/- the futures too will be trading at Rs. 110/- and the fund will capture the 10% upside the stock provided and along with it the 2% arbitrage too, thereby enhancing returns to 12%.

Risks :

While Futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time for schemes to purchase or close out a specific futures contract.

The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures.

Buy Spot Sell Future : If the fund holds a stock XYZ Ltd which trades @ Rs 100/- at the spot market and is trading at Rs. 102/- in the futures market. The fund may buy the spot and sell the futures and earn the premium of Rs.2/- which is risk-free. However this strategy can be used only when the fund is sitting in cash and is looking at enhancing the returns on the cash.

Risks :

While Futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time for schemes to purchase or close out a specific futures contract.

The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures.

Sell Future : This helps in shorting the market and taking a direct short position in the market. Futures facilitate a short position if fund manager has a bearish view in the market. Sold Futures can be repurchased any time up to the date of its expiry. If not re-purchased, it is automatically squared-off on the expiry date at Spot Rate.

Risks :

The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Buy Future : If the fund wants to initiate a long position in a stock whose spot price is at say, Rs. 100/- and futures is at Rs. 98/-, the fund may just buy the futures contract instead of the spot thereby benefiting from a lower cost option.

Risks :

The risks associated with stock futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and potential mis-pricing of the futures and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Interest Rate Swaps :

The Indian markets have faced high volatility in debt and equity markets. An interest rate swap is a contractual agreement between two counter-parties to exchange streams of interest amount on a national principal basis. In this, one party agrees to pay a fixed stream of interest amount against receiving a variable or floating stream of interest amount. The variable or floating part is determined on a periodical basis. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.

Let us look at an example of an interest rate swap :

Entity A has a Rs.20 crores, 3 month asset which is being funded through call. Entity B, on the other hand, has deployed in overnight call money market a Rs.20 crores, 3 month liability. Both the entities are taking on an interest rate risk.

To hedge against the interest rate risk, both the entities can enter into a 3 month swap agreement based on say MIBOR (Mumbai Inter Bank Offered Rate). Through this swap, entity B will receive a fixed pre agreed rate (say 8%) and pay NSE MIBOR ("the benchmark rate") which will neutralize the interest rate risk of lending in call. Similarly, entity A will neutralize its interest rate risk from call borrowing as it will pay 8% and receive interest at the benchmark rate.

Assuming the swap is for Rs. 20 crores 1st September to 1st December, Entity A is a floating rate receiver at the overnight compounded rate and Entity B is a fixed rate receiver. On a daily basis, the benchmark rate fixed by NSE will be tracked by them.

On December 1, they will calculate as explained below:

Entity A is entitled to receive daily compounded call rate for 92 days and pay 8% fixed. Entity B is entitled to receive interest on Rs.20 crores @ 8% i.e. Rs.40.33 lakhs, and pay the compounded benchmark rate.

Thus on December 1, if the total interest on the daily overnight compounded benchmark rate is higher than Rs.40.33 lakhs, entity B will pay entity A the difference and vice versa.

Forward Rate Agreement (FRA)

A FRA is basically a forward starting IRS. It is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Example : Let us assume that a scheme has an investment of Rs.10 crore in an instrument that pays interest linked to NSE MIBOR. Since the NSE MIBOR would vary daily, the scheme is running interest rate risk on its investment and would stand to lose if rates go down. To hedge itself against this risk, the scheme could do an IRS where it receives a fixed rate (assume 10%) for the next 5 days on the notional amount of Rs. 10 crore and pay a floating rate (NSE MIBOR). In doing this, the scheme would effectively lock itself into a fixed rate of 10% for the next five days. The steps would be :

1. The scheme enters into an IRS on Rs. 10 crore from December 1, 2001 to December 6, 2001. It receives a fixed rate of interest at 10% and the counter party receives the floating rate (NSE MIBOR).

The scheme and the counter party exchange a contract of having entered into this IRS.

2. On a daily basis, the NSE MIBOR will be tracked by the counterparties to determine the floating rate payable by the scheme.

3. On December 6, 2001, the counterparties will calculate the following :

The scheme will receive interest on Rs. 10 crore at 10% p.a. for 5 days i.e. Rs.1,36,986/-

The scheme will pay the compounded NSE MIBOR for 5 days by converting its floating rate asset into a fixed rate through the IRS.

If the total interest on the compounded NSE MIBOR rate is lower than Rs. 1,36,986/-, the scheme will receive the difference from the counterparty and vice-versa. In case the interest on compounded NSE MIBOR is higher, the scheme would make a lower return than what it would have made had it not undertaken IRS.

Risks :

Interest rate swaps and FRA require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that the derivative adds to the portfolio and the ability to forecast failure of another party (usually referred to as the "counter-party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives, the credit risk where the danger is that of a counter-party failing to honour its commitment, liquidity risk where the danger is that the derivative cannot be sold at prices that reflect the underlying assets, rates and indices, and price risk where the market price may move in adverse fashion.

As is clear from the above examples, engaging in derivatives has the potential to help the scheme in minimising the portfolio risk and/or improve the overall portfolio returns.

Please note these examples are hypothetical in nature and are given for illustration purposes only.

The actual returns may vary depending on the market conditions.

The AMC retains the right to enter into such derivative transactions as may be permitted by the applicable regulations from time to time.

Investment in Foreign Securities

The Scheme may also invest in suitable investment avenues in Foreign Securities in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to necessary stipulations by SEBI / RBI. Towards this end, the Mutual Fund may also appoint overseas investment advisors and other service providers, as and when permissible under the regulations.

The Scheme may, with the approval of SEBI / RBI invests in:

- Initial and follow on public offerings for listing at recognized stock exchanges overseas
- Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
- Money Market Instruments rated not below investment grade

- Repos in the form of investment, where the counterparty is rated not below investment grade, repos shall not however, involve any borrowing of funds by the mutual funds
- Government Securities where the countries are rated not below investment grade
- Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
- Short term deposits with banks overseas where the issuer is rated not below investment grade
- Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in (a) aforesaid securities, or (b) unlisted overseas securities (not exceeding 10% of their net assets).

As per SEBI Circular SEBI/IMD/CIR No.7/104753/07 dated September 26, 2007, mutual funds can make overseas investments subject to a maximum of US \$300 million or such limits as may be prescribed by SEBI from time to time. Subject to the approval of RBI / SEBI, where required and conditions as may be prescribed by them, the Mutual Fund may open one or more foreign currency accounts abroad either directly, or through the custodian/sub-custodian, to facilitate investments and to enter into/deal in forward currency contracts, currency futures, interest rate futures / swaps, currency options for the purpose of hedging the risks of assets of a portfolio or for such purposes as maybe permitted from time to time. However, the use of such instruments shall be as permitted from time to time. All the requirement of the SEBI circular dated September 26, 2007, would be adhered to by the AMC for investment in foreign securities.

Presently the AMC does not have approval to invest in foreign securities it will take the necessary approvals from SEBI & RBI before commencing investments in foreign securities. A dedicated fund manager will be appointed to oversee investments in foreign securities prior to taking exposure in foreign securities.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The scheme follows a blend of value and growth style of investing. The fund will follow a bottom-up approach to stock-picking and choose companies across sectors. The debt portion of the scheme will be invested in high quality fixed income instruments.

i. Investment Strategy

Asset allocation between equities and debt is a critical function in an equity fund. The equity and debt portfolios of the Scheme would be managed as per the respective investment strategies detailed herein :-

- Optimally allocate assets between equity and debt within defined limits. Allocation of assets between Equity and Debt will need to be monitored and reviewed at regularly intervals (at least quarterly) through an internal process.
- Actively manage the equity and debt portfolio to realize the scheme objective. Debt and equity exposures would be adequately diversified. Debt exposures would be actively managed from both credit and interest rate risk (no duration constraints) perspectives with due consideration given to liquidity of investments. The scheme will invest in equity without any market capitalization or sector/style bias.
- The asset allocation in the fund is designed keeping in mind the necessity of providing consistent returns and maintaining a balance between debt and equity, with occasional alterations.

Equity Investments :

The investment approach would be based on the concept of economic earning power and cash return on investments.

Five basic principles serve as the foundation for this investment approach. They are as follows :

- ❖ Focus on long term growth.
- ❖ View our investments as conferring a proportionate ownership of the business.
- ❖ Maintain a margin of safety (i.e. the price of purchase represents a discount to the intrinsic value of that business).
- ❖ Maintain an equity outlook on the market by regularly monitoring economic trends and investor sentiment.
- ❖ The decision to sell a holding would be based on one of three reasons:
 - The anticipated price appreciation has been achieved or is no longer probable.
 - Alternative investments offer superior total return prospects, or
 - A fundamental change has occurred in the company or the market in which it competes.

Debt Investments :

The Scheme will retain the flexibility to invest in the entire range of debt instruments and money market instruments. Investment in Debt securities and Money Market Instruments will be as per the limits in the asset allocation table of the Scheme, subject to permissible limits laid under SEBI (MF) Regulations. Please refer to section 'WHERE WILL THE SCHEME(S) INVEST' on Page 8.

Derivatives :

Derivatives are financial contracts of predetermined fixed duration, whose values are derived from the value of an underlying primary financial instrument, or index, such as: interest rates, exchange rates, and equities.

The Scheme will endeavour to invest in arbitrage opportunities between spot and futures prices of exchange traded equities. The Scheme will build similar hedge positions that offer an arbitrage potential for e.g. buying the basket of index constituents in the cash segment and selling the index futures and selling the corresponding stock future, etc.

The Scheme will also invest in low risk derivatives strategies. These strategies will involve any combination of cash, futures and options.

The Scheme will invest in opportunities arising out of corporate actions announced in stocks that offer superior risk adjusted returns and IPOs. Please refer to INVESTMENTS IN DERIVATIVE INSTRUMENTS under the section 'WHERE WILL THE SCHEME(S) INVEST' on Page 8.

Cash Futures Arbitrage Strategy (Only one way as funds are not allowed to short in the cash market):

The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return.

Buying the stock in cash market and selling the futures results into a hedge where the fund have locked in a spread and is not affected by the price movement of cash market and futures market The arbitrage position can be continued till expiry of the future contracts.

The future contracts are settled based on the last half an hour's weighted average trade of the cash market. Thus there is a convergence between the cash market and the futures market on expiry. This convergence helps the fund to generate the arbitrage return locked in earlier. However, the position could even be closed earlier in case the price differential is realized before expiry or better opportunities are available in other stocks. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of capital.

Corporate Action / Event Driven Strategies:

- Dividend Arbitrage: Around dividend declaration time, the stock futures / options market can provide a profitable opportunity. Generally, the stock price decline by the dividend amount when the stock goes ex-dividend.
- Buy-Back Arbitrage: When the Company announces the buy-back of its own shares, there could be opportunities due to price differential in buyback price and traded price.
- Merger: When the Company announces any merger, amalgamation, hive off, de-merger, etc, there could be opportunities due to price differential in the cash and the derivative market.

For the purpose of identifying sector, the scheme shall use AMFI sector definition. However, this limit may not be applicable for CBLO/Bank CDs/GOI secs/T-Bills and AAA rated PSU Banks and PFIs.

Though every endeavor will be made to achieve the objectives of the Scheme, the AMC/Sponsors/Trustees do not guarantee that the investment objectives of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

ii. **Portfolio Turnover**

Portfolio Turnover is defined as the lower of the value of purchases or sales as a percentage of the average corpus of the Scheme during a specified period of time. Due to the inherent nature of the Scheme, it is expected that there could be regular subscriptions and redemptions on an ongoing basis. Further, the AMC may have to sell the underlying from time to time to meet ongoing expenses/transaction costs or redemptions. In view of the above, it will be difficult to provide an estimate/range with a reasonable measure of accuracy for the anticipated portfolio turnover in the Scheme, but it will be the endeavour of the fund manager to maintain an optimal portfolio turnover rate commensurate with the investment objective of the scheme and purchase/ redemption transactions on an ongoing basis in the scheme.

iii. **Risk Control**

The Mutual Fund has built adequate internal risk management controls and safeguards to ensure that the Scheme is managed in line with the defined investment objectives and in compliance with SEBI (MF) Regulations. The AMC will monitor the tracking error on an ongoing basis and review the performance against the benchmark index and peer group regularly.

All investment decisions, relating to the Scheme, will be undertaken by the AMC in accordance with the Regulations and the investment objectives specified in this SID. All investment decisions taken by the AMC in relation to the Scheme shall be recorded.

The Investment Management Committee (IMC) consisting of senior employees including the MD of the AMC to oversee the Investment function, will be responsible for laying down the broad Investment Policy and the Specific scheme mandates, in addition to monitoring scheme performance and reviewing portfolio strategy. The risk control parameters would be laid down for each scheme based on the objectives of the scheme and prudent fund management practices will ensure that investor monies are invested in the appropriate risk/reward environment. The AMC would ensure that investments are made in accordance with the regulatory / internal guidelines, if any. Internal guidelines may be set by the AMC from time to time and reviewed in line with the market dynamics.

The designated Fund manager of the scheme will be responsible for taking the day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

The Scheme performance would be benchmarked to NIFTY 500 index. The fund reserves the right to change the said benchmark and/or adopt one/more other benchmarks to compare the performance of the Scheme.

In case of investments in debt instruments, the AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, the investment team of the AMC will carry out requisite credit evaluation of the securities. Rated Debt instruments in which the Scheme invests will be of investment grade as rated by a credit rating agency. The AMC will be guided by the ratings of Rating Agencies such as CRISIL, CARE, ICRA and Fitch or any other rating agencies that may be registered with SEBI from time to time.

The AMC may approach rating agencies such as CRISIL, ICRA, etc for ratings of the scheme. The Scheme may use various derivatives and hedging products from time to time, as would be available and permitted by SEBI, in an attempt to protect the value of the portfolio and enhance Unit holders' interests.

The Scheme may invest in other Schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. As per the Regulations, no investment management fees will be charged for such investments and the aggregate inter-Scheme investment made by all Schemes of Shriram Mutual Fund or in the Schemes under the management of other asset management companies shall not exceed 5% of the net asset value of the Shriram Mutual Fund. The limit however does not apply to any Fund of Funds scheme. For the present, the Scheme does not intend to enter into underwriting obligations. However, if the Scheme does enter into an underwriting agreement, it would do so after complying with the Regulations.

F. FUNDAMENTAL ATTRIBUTES

The following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations :

(i) Type of the scheme

An Open Ended Equity Scheme Investing Across Large Cap, Mid Cap, Small Cap Stocks

(ii) Investment Objective

Please refer to section "**INVESTMENT OBJECTIVE OF THE SCHEME**" on Page 7

Investment pattern

Please refer to section "Asset Allocation Pattern" on Page 7

(iii) Terms of Issue

- Liquidity Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase/ resale loads as applicable (within limits) as specified under SEBI Regulations 1996, the repurchase price shall not be lower than 93% of the NAV.
- Listing is not envisaged as the Scheme is an open-ended Scheme, with the Fund providing for sales and repurchase on a continuous basis.
- Aggregate fees and expenses charged to the scheme - Please refer section "IV FEES AND EXPENSES" for details.
- The Scheme does not provide any safety net or guarantee nor does it provide any assurance regarding the realization of the investment objective of the scheme or in respect of declaration of dividend.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- (ii) The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Justification for use of benchmark

On the basis of investment objective of the scheme, NIFTY 500 has been currently selected as the benchmark of the scheme. Since the scheme will invest mainly in Equity & equity related securities diversified over various sectors, NIFTY 500 index is the most appropriate index for the scheme. NIFTY 500 is a well-diversified stock index accounting for xxx., sectors of the economy. It is a popular and widely followed benchmark to track the performance of Indian equity markets. It is a diversified index and captures most of the sectors from which portfolio might be constructed. The Trustee reserves the right to change the benchmark for evaluation of performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

WHO MANAGES THE SCHEME?

i. Investment restrictions

Investment restrictions as contained in the Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 and applicable to the Scheme is provided below -

- The scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of Directors of the AMC.
Provided that such limit shall not be applicable for investment in Government Securities, treasury bills and collateralized borrowing and lending obligations.
Provided further that investment within such limit can be made in mortgaged backed securitized debt which are rated not below investment grade by a credit rating agency registered with the Board.
- The Scheme shall not invest more than 10% of its NAV in un-rated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Trustee and Board of AMC.
- Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if,-
 - Such transfers are done at the prevailing market price for quoted instruments on spot basis. In the absence of a traded price, price derived from the last valuation yield shall be used. [Explanation :- "Spot basis" shall have same meaning as specified by stock exchange for spot transactions;]
 - The securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
- Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments as specified under Clause 1 and 1A of Seventh Schedule to the Regulations.
- The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities.
Provided further that the mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board.
Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
- No mutual fund scheme shall invest more than 10% of its NAV in the equity shares or equity related instruments of any company.
- The Mutual Fund shall get the securities purchased or transferred in the name of the Mutual Fund on account of the concerned scheme, wherever investments are intended to be of long-term nature.
- Pending deployment of the funds of the Scheme in securities in terms of the investment objective of the Scheme, the AMC may park the funds of the Scheme in short term deposits of scheduled commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007 as may be amended from time to time.
- The Scheme shall not make any investment in,-
 - Any unlisted security of an associate or group company of the sponsor; or
 - Any security issued by way of private placement by an associate or group company of the sponsor; or
 - The listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
- The Scheme shall not make any investment in any fund of funds scheme.
- The Fund shall not borrow except to meet temporary liquidity needs of the Fund for the purpose of Repurchase/Redemption of Unit or payment of interest and/or Dividend to the Unit holder.
The Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.
- The mutual fund scheme shall not invest more than 5% of its NAV in the unlisted equity shares or equity related instruments.
- Further, SEBI vide its circular no. Cir/ IMD/ DF/ 11/ 2010 dated August 18, 2010 has prescribed the following investment restrictions w.r.t. investment in derivatives:
 - The cumulative gross exposure through debt and derivative positions shall not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days shall be treated as not creating any exposure.
 - The Scheme shall not write options or purchase instruments with embedded written options.
 - The total exposure related to option premium paid shall not exceed 20% of the net assets of the scheme.
 - Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:
 - Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
 - Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
 - Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows :

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts.

7. The Scheme may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 5% of the net assets of the scheme.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time.

All the investment restrictions will be applicable at the time of making investments. Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

- ii. The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

- iii. Investments in other schemes

According to the Clause 4 of Schedule 7 read with Regulation 44(1), of the SEBI (MF) Regulations, 1996: "A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter-scheme investments made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund."

- iv. AMC's investments in the Scheme

The AMC may invest in the scheme, such amount, as they deem appropriate. But the AMC shall not be entitled to charge any management fees on this investment in the scheme. Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996 which states that:

"The asset management company shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the offer document, provided that the asset management company shall not be entitled to charge any fees on its investment in the scheme.

Further, in accordance with Regulation 28(5) of the SEBI (MF) Regulations, 1996 the sponsor or the AMC shall invest not less than one percent of the assets under management of the scheme as on date of notification of these regulations or fifty lakh rupees, whichever is less, in the growth option of the scheme and such investment shall not be redeemed unless the scheme is wound up:

The Trustee/AMC may alter these above stated restrictions of Section I - (What Are the Investment Restrictions) from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme(s) to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

However, the Trustee reserve the right to introduce / modify investment Plans / Options under the Scheme at a future date in accordance with SEBI (MF) Regulations.</p> <p>All plans/options will have a common portfolio.</p> <p>If Dividend payable under Dividend Payout option is equal to or less than Rs. 500/- then the Dividend would be compulsorily reinvested in the option of the Scheme.</p> <p>Direct Plan is only for the investor who purchase/subscribe Units in the Scheme directly with the Fund (i.e Investments not routed through AMFI Registration number (ARN) Holder.) Investments under Direct Plan can be made through various modes offered by the Fund for investing directly with the Fund (except Stock Exchange Platform(s) and all other Platform(s) where investors' applications for subscription of units are routed through Distributors).</p>
Dividend Policy	<p>The Dividend Policy for the scheme will be in line with the guidelines laid down by SEBI through its circular SEBI/IMD/CIR No.1 /64057 /06 dated April 4, 2006, the procedure for which will be as follows :-</p> <ol style="list-style-type: none"> Quantum of dividend and the record date shall be fixed by the trustees in their meeting. Dividend so decided shall be paid, subject to availability of distributable surplus and at the discretion of the AMC. Record date shall be the date which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of unit holders for receiving dividends. Further, the NAV shall be adjusted to the extent of dividend distribution and statutory levy, if any, at the close of business hours on record date. Within one calendar day of the decision by the trustees, AMC shall issue notice to the public communicating the decision including the record date. The record date shall be 5 calendar days from the issue of notice. Such notice shall be given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the mutual fund is situated. The notice shall, in font size 10, bold, categorically state that pursuant to payment of dividend, the NAV of the scheme would fall to the extent of payout and statutory levy (if applicable). Before the issue of such notice, no communication indicating the probable date of dividend declaration in any manner whatsoever may be issued by any mutual fund or distributors of its products. <p>The requirement of giving notice shall not be applicable for Dividend options having frequency of dividend distribution from daily up to monthly dividend. There is no assurance or guarantee to the Unit holders as to the rate of Dividend nor that will the Dividend be paid regularly.</p>
Allotment	<p>Full allotment will be made to all valid applications received during the New Fund Offer Period of respective Plan(s). Allotment of Units shall be completed not later than 5 business days after the close of the New Fund Offer Period.</p>
Account Statements	<p>Pursuant to Regulation 36 of SEBI (Mutual Funds) Regulations, 1996 and amendments thereto, read with SEBI circular No. Cir/ IMD/ DF/16/ 2011 dated September 8, 2011, the investor whose transaction** has been accepted by the AMC/Mutual Fund shall receive the following :</p> <ol style="list-style-type: none"> On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted by way of email and/or SMS within 5 Business Days from the date of receipt of transaction request will be sent to the Unit holders registered e-mail address and/or mobile number. Account Statement to the Unitholders will be dispatched within 5 working days. Thereafter, a consolidated account statement (CAS)^ for each calendar month to the Unit holder(s) in whose folio(s) transaction**(s) has/have taken place during the month on or before 10th of the succeeding month shall be sent by mail/e-mail. <p>^Consolidated Account Statement (CAS) shall contain details relating to all the transactions** carried out by the investor across all schemes of all mutual funds during the month and holding at the end of the month including transaction charges paid to the distributor.</p> <p>Further , each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme (SEBI Circular SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016)</p> <p>**The word "transaction" shall include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan and bonus transactions.</p> <ol style="list-style-type: none"> For the purpose of sending CAS, common investors across mutual funds shall be identified by their Permanent Account Number (PAN). In case of a specific request received from the Unit holders, the AMC/Fund will provide the account statement to the investors within 5 Business Days from the receipt of such request. In the event the account has more than one registered holder, the first named Unit holder shall receive the CAS/account statement. The CAS shall not be received by the Unit holders for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. <p>Further, the CAS detailing holding across all schemes of all mutual funds at the end of every six months (i.e. September/ March), shall be sent by mail/e-mail on or before 10th day of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period. The Half yearly consolidated account statement will be sent by e-mail to the Unit holders whose e-mail address is available, unless a specific request is made to receive in physical.</p> <p>Further, pursuant to SEBI Circular SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016 CAS issued for the half-year (September/ March) shall also provide:</p> <ol style="list-style-type: none"> The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services Tax (wherever applicable, as per existing rates), operating expenses, etc. The scheme's average Total Expense Ratio (in percentage terms) for the half-year period, of both direct plan and regular plan, for each scheme where the concerned investor has invested in. <p>Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.</p>

	The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically. The account statement shall not be construed as a proof of title and is only a computer generated statement indicating the details of transactions under the Scheme and is a non-transferable document. The account statement will be issued in lieu of Unit Certificate.
Unit Certificates	Normally no Unit Certificates will be issued. However, if the applicant so desires, the AMC shall issue a non-transferable Unit Certificate to the applicant within five business days of the receipt of request for the certificate. A Unit Certificate if issued must be duly discharged by the Unit holder(s) and surrendered along with the request for redemption/switch or any other transaction of Units covered therein.
Refund	In accordance with the Regulations, if the Scheme fails to collect the minimum subscription amount as specified above, the Fund shall be liable to refund the money to the applicants. In addition to the above, refund of subscription money to applicants whose applications are invalid for any reason whatsoever will commence immediately after the allotment process is completed. Refunds will be completed within 5 business days of the close of the New Fund Offer Period. If the Fund refunds the amount after five business days, interest @ 15% per annum shall be paid by the AMC. Refund orders will be marked "Account Payee only" and drawn in the name of the applicant in the case of the sole applicant and in the name of the first applicant in all other cases.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities :

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Notes :

1. The maximum recurring expenses shall be subject to following limits

Maximum Recurring Expenses	Equity oriented Schemes**
on the first Rs. 100 crores of the daily net assets	2.50%
on the next Rs. 300 crores of the daily net assets	2.25%
on the next Rs. 300 crores of the daily net assets	2.00%
on the balance of the assets	1.75%

** excluding additional limit of 0.05% specified in sub regulation (6A)(c) of Regulation 52 of SEBI (Mutual Funds) Regulations, 1996.

2. In addition to the expenses indicated above, the scheme will also bear
 - a) the GST on investment management & advisory fees
 - b) Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are at least-
 - (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis:

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities:

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

3. Brokerage & transaction costs (including Goods and Services Tax) which are incurred for the purpose of execution of trade may be capitalised to the extent of 12bps and 5bps for cash market transactions and derivatives transactions respectively. Goods and Services Tax on brokerage and transaction cost paid for execution of trades shall be within the limit prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the asset management company or by the trustee or sponsors.
 2. AMC shall annually set apart atleast 2 basis point on daily net assets for investor's education and awareness initiatives.
 3. The investor should refer to the website of the mutual fund for the latest expense ratio of the scheme.
- These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.shriramamc.com) or may call your distributor.

Type of Load	Load chargeable (as %age of NAV)
Entry load	Not applicable (For normal transactions/switch-in and SIP transactions). In terms of SEBI Circular No. SEBI/IMD/CIR No.4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.
Exit Load (During NFO and on an ongoing basis) Redemption/switch-out/Transfer/ Systematic Withdrawal Plan	1% for exit up to 365 days from the date of allotment

Goods and Services Tax on exit load, if any, shall be paid out of the exit load proceeds and exit load net of Goods and Services Tax, if any, shall be credited to the scheme.

The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure AMC will inter alia issue an addendum and display it on the website / Investor Service Centers.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. AMC shall not charge any load on issue of bonus units and units allotted on reinvestment of dividend for existing as well as prospective investors. At the time of changing the Load Structure:

1. The addendum detailing the changes will be attached to SIDs and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Memoranda already in stock.
2. The addendum will be displayed on the website of the Mutual Fund and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centres and distributors /brokers' office.
3. The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the accounts statement issued after the introduction of such load.
4. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated.
5. Any other measure which the Mutual Fund may consider necessary.

Transaction charges :

In accordance with SEBI circular no. CIR/ IMD/ DF/ 13/ 2011 dated August 22, 2011, Transaction Charge per subscription of Rs.10, 000/- and above shall be charged from the investors and shall be payable to the distributors/ brokers in respect of applications routed through distributor/ broker relating to Purchases / subscription / new inflows only (lump sum and SIP), subject to the following:

- For Existing / New investors: Rs.100 / Rs.150 as applicable per subscription of Rs.10,000/- and above
- Transaction charge for SIP shall be applicable only if the total commitment through SIP amounts to Rs.10,000/- and above. In such cases the transaction charge would be recovered in maximum 4 successful installments.
- There shall be no transaction charge on subscription below Rs.10,000/-.
- There shall be no transaction charges on direct investments.
- There shall be no transaction charges for transaction other than purchases/subscriptions relating to new inflows such as Switches, etc.
- Transactions carried out through the Stock Exchange platforms for mutual funds shall not be subject to transaction charges.

However the distributors shall have an option to either "Opt-in/Opt-out" from levying transaction charge based on the type of product. Therefore, the "Opt-in/Opt-out" status shall be at distributor level, basis the product selected by the distributor at the Mutual Fund industry level.

The Transaction Charge as mentioned above shall be deducted by the AMC from the subscription amount of the Unit Holder and paid to the distributor and the balance shall be invested in the Scheme. The statement of account shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment.

The requirement of minimum application amount shall not be applicable if the investment amount falls below the minimum amount required due to deduction of transaction charges from the subscription amount.

The AMCs shall be responsible for any malpractice/mis-selling by the distributor while charging transaction costs.

DIRECT APPLICATIONS

Pursuant to SEBI circular no. SEBI/IMD/CIR No.4/ 168230/09 dated June 30, 2009 no entry load shall be charged for all mutual fund schemes. Therefore, the procedure for waiver of load for direct applications is no longer applicable.
